

Purpose of the South Bristol Fish & Game Club

This Club is an organization of men & women who share a mutual interest in fish, wildlife & environmental conservation. We are defenders of our firearms freedoms as defined in the 2nd amendment of the Constitution of the United States of America.

Our purpose is to exercise our firearms freedoms through recreational shooting and firearm collecting. We promote civilian marksmanship through sport hunting, hunter and shooter education. We provide education in our community on issues of firearm safety, firearms owner responsibility, hunter ethics and conservation of our natural resources. We are the grassroots where conservation & environmental laws are written and purposed at the local level (OCCF) & state levels (NYSCC etc.). Our education to sportsmen, young and old, is very important to the future of past heritage. We would like to invite all sportsmen/conservationists to participate in our goals.
